

**Remarks**

Applicant notes that per telephonic discussion and agreement with Supervisory Patent Examiner Joseph Woitach on 2 August 2007, applicant provides the following remarks in response to the Office Action mailed 2 February 2007, which will not be deemed non-responsive to the Office Action.

Upon review of the electronic file of the present application in Public Pair, applicant notes that there is a discrepancy between the application on file in Public Pair and the application filed by applicant. The application on file in Public Pair is PCT International Application Serial No. PCT/US01/10482. However, the present application, United States Serial No. 10/527,100 filed 9 March 2005 is a Sec. 371 application claiming priority under 35 USC Sec. 120 to PCT International Application No. PCT/US03/028317 filed 10 September 2003, which claims the benefit under Sec. 119 of United States Provisional Application 60/410,340 filed 11 September 2002, now abandoned. A copy of the Application Data Sheet (5 pages), filed 9 March 2005 with the Transmittal Letter of the present application and detailing the above continuity information, is included here.

For clarification of the record, applicant respectfully requests resolution of the above-mentioned discrepancy so that examination of the application can be advanced.

Where helpful for facilitating the resolution of the above-mentioned discrepancy and advancing examination of this application, applicant encourages the Examiner to call the undersigned attorney at the telephone number provided below.

Respectfully submitted,  
GENENTECH, INC.

Dated: 2 August 2007
